

# SAFE DINE-IN TIPS

- Wear masks when less than 6 feet apart from other people or indoors
- Take precautions – like wearing a mask as much as possible when not eating and maintaining a proper social distance if you are dining with others who don't live with you
- Put your mask on when any wait staff approach the table
- Maintain a social distance of 6 feet or more in any entryway, hallway, or waiting area
- When possible, sit outside at tables spaced at least 6 feet apart from other people
- When possible, choose food and drink options that are not self-serve to limit the use of shared serving utensils, handles, buttons, or touchscreens
- Look for an empty tabletop. Napkins, straws, silverware, and glassware should be given to you when you're seated
- Paper or digital menus should be provided upon arrival. If menus are reusable, ask if they are regularly disinfected
- Before using the restroom, make sure there is enough soap and a way to dry your hands (e.g., paper towels, hand dryer), or hand sanitizer containing at least 60% alcohol
- No salt and pepper shakers or condiment bottles should be at your table. Ask your server for items that you need
- If paying by credit card, bring your own pen to sign the check
- Wash your hands for at least 20 seconds when entering and exiting the restaurant. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry
