

Women's Imaging Center

at Western Reserve Hospital

Our team of providers will promote breast health as a priority and will focus on the prevention, diagnosis, treatment and health education needs of women with our one-of-a-kind, patient-focused approach. Our mammography team has over 30 years of experience and will work with you to meet all your health needs.

Routine care is the best way to maintain breast health. Western Reserve Hospital's specialists are here to help you stay healthy and provide breast care whenever needed.

Be familiar with the way your breasts look and feel. Tell your doctor if you notice any changes in the look or feel of the breast and nipple.

Complete services at our new Women's Imaging Center include:

- 2D and 3D Mammography
- Breast Ultrasound
- Breast Biopsy
- Breast Reconstructive Surgery
- Bone Mineral Density Test
- Films/prior records available upon request

▶ Appointments can be scheduled by calling (330) 971-7496.

The center is open Monday – Friday, 8 a.m. – 4 p.m
