

Physician Update – Diagnosketch

- There is a new link available in Paragon Clinician Hub for an E-book, *Diagnosketch*

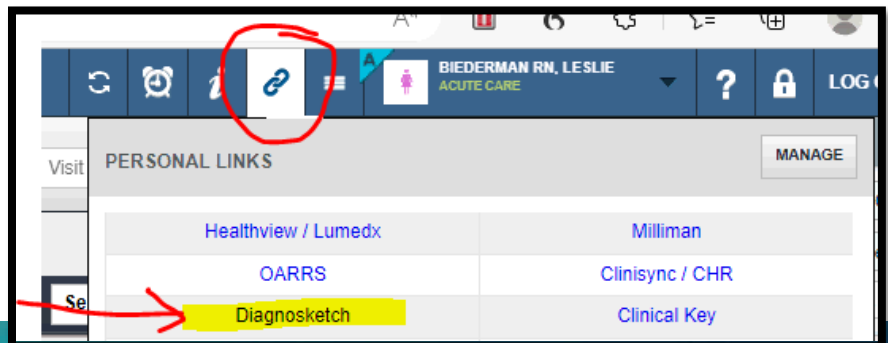

Diagnosketch is an E-Book containing pictures of medical diagnoses. WRH intends to use this as an educational resource for educating patients regarding their diagnosis.

WRH use is educational in nature and focused on educating patients regarding their diagnoses.

- It is preferred that patients take photos of a page or pages necessary, if interested.
- We may only print pages that are necessary for their diagnosis.
- It is **not permissible** to:
 - print the entire book for distribution outside of the hospital, for commercial purposes, or to give to patients;
 - print entire chapters for distribution outside of the hospital, for commercial purposes, or to give to patients (if the patient is interested in the publication, you can give them the title so they can purchase on their own).

To access - Click Personal links
Icon top left of Paragon Clinician
Hub application – Then Select
Diagnosketch

Opens WRH webpage table of contents
